RIGHT ON TARGET GIVEAWAYS

Thousands of great-value giveaways

Bullet's huge collection of affordable promotional giveaways makes spreading your message simple.

All Bullet items are easily personalised with your company name, logo or message. A choice of decoration methods gets you quality results on every kind of material.

Bullet's keen eye for great new products puts a host of fresh ideas at your fingertips for 2016. Getting you out and about, we've got expanded selections of cooler bags and other outdoor accessories for both safety and fun. Together with improved on-the-go tech and affordable entry-level items. We've also added tools at every price-point, drinkware with innovative twists and a wider choice of stationery items.

Dare to be different

If Bullet's extensive collection doesn't have exactly what you're looking for, then check out the infinite world of possibilities offered by WorldSource, in the central section of this catalogue.

Enjoy promoting with Bullet

bullet NEWS

bullet's BEST™
EVERY DAY RIGHT PRICE

Always assuring you of the right price, Bullet's Best™ identifies items that we've benchmarked against other supplier's offers. So you don't need to shop around to know you've already found a competitive deal.

This year's tech selection is even more affordable with new entry level headphones and an in-car charger with dual ports, plus a price-reduced light-up Bluetooth® speaker. We've also got more computer and phone-related gadgets and improved powerbanks with more functionality and higher capacity. Quick reference guides to specs for all our tech products can be found on pages 17, 24 and 31.

Whatever you want from a bag, you're more likely than ever to find it thanks to our broadened choice. We've added cotton totes with a splash of colour, a new range of conference bags, plus a large collection of cooler bags in all shapes and forms.

Bullet's selection of torches and lighting devices is brightened with additional colour options and plenty of new models. The competitively-priced trendy Pull Lamp is set to be a guaranteed hit. We've also been adding to our tool collection, with all kinds of new models in every category of quality.

A flurry of new items for outdoor activities provide protection, practicality and fun. While LED shoe clips give night-time visibility, unobtrusive strap-on pouches keep valuables closely secure while on-the move. Trendy crystal lens sunglasses, an entry-priced beach mat and new coloured beach balls ramp up the fun factor. And for those planning to watch the UEFA EURO 2016 football outdoors, we've got handy ponchos neatly stored in a 'football' case.

New "Acu-Flow" ink cartridges mean everybody can enjoy a superior, super-smooth writing experience. They contain high quality, quick-drying ink which prevents smearing and bleeding through the paper.

Drinkware gets ever-more inventive, with exciting new styles and the availability of sublimation as an ideal decoration technique. The Messenger Bottle's flat surface allows easy storage and increased decoration area. Meanwhile the Nutri Shaker and Faucet bottle are perfect for corporate wellness programmes and healthy lifestyle.
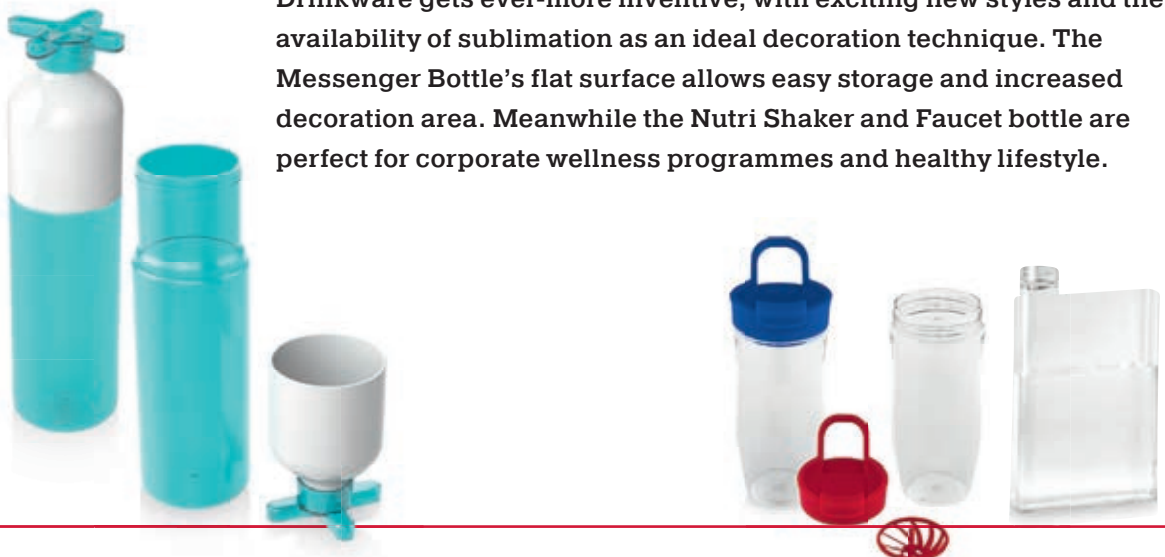

If Bullet's wide-ranging selection doesn't meet all your customisation needs, Worldsource can still solve them. Items with the Worldsource logo can be adjusted in additional ways for colour, features or packaging. So you can get all the details just the way you want them.

Our comprehensive range of decoration techniques delivers the right solution for getting every message across, accurately representing your image and bringing your chosen gift to life.

STUCK ON YOU SUCTION POWER BANK 2200 MAH

ABS and Silicon.
2200 mAh rechargeable lithium ion Grade A battery is enough to charge Android smartphones (Samsung, Huawei, HTC, Sony, Nokia and others), MP3 players and more using the micro USB input. The Suction on the back side allows you to suction the power bank to your mobile device. Input: 5V/500 mA. Output: 5V/1000mA.
10 x 2,6 x 2,5 cm

Compliance: EMC • WEEE • Battery Directive • MSDS • RoHS
Recommended decoration: Padprint

JOLT CHARGER WITH DIGITAL POWER DISPLAY 2200 MAH

Aluminum.
The 2200 mAh internal Li-Ion Grade A battery has enough life to fully charge most iPhones and Android smartphones, giving you about 8 hours of additional talk time. The LED digital power indicator will confirm exactly how much charge remains within the power bank.
2,3 x 9,2 x 2,3 cm

Reflectors

Reflective items are great safety accessories that make you more visible to passing vehicles when out walking, cycling or even replacing a car tyre in dim light.

Choose from slap wraps, safety vests, reflective stickers and many more quick-fix items in all kinds of shapes and colours. Select from our wide range of pre-designed products or create your own unique design.

All meet CE standard EN 13356.
Safety vests comply with TÜV EN 1150, EN 20-471.

extra stability and protection. Fits 1 pen up to 14 cm.
ø 2,1 x 15 cm

Compliance: Cadmium tested
Recommended decoration: Screenround

Decoration Information

Sublimation

Sublimation is a printing method where ink is heated to turn into gas and form a permanent bond with the to-be-decorated material.
- Premium full-colour photorealistic prints
- Suitable for polyester fabrics (minimum 60% polyester) and polymer coated products
- Soft, flexible imprint that can even be applied over seams and zips
- Decoration is resistant to fading and cracking
- Only suitable for white products

Laser engraving

Laser engraving is achieved through using a laser beam to precisely etch decoration into a surface.
- Create a high-class impression
- Unique tone on tone
- Superb result for metal, glass and wood
- Available within our SureShip™ service

Padprint

Pad printing or tampon printing is an indirect offset printing process that involves ink being transferred from a engraved metal plate via a silicone pad onto the product creating the image.
- Great all-round cost-effective solution
- Can be applied on virtually any shape
- Suitable for any surface texture, including soft products like stress balls
- Perfect for multi coloured logos
- Fast and economical
- Available within our SureShip™ service

Screenprint

Screen printing or silk screen is a printing method where the image is imposed on a mesh screen with blank areas coated with an impermeable substance. Inks are then pressed through the mesh screen to produce clear, sharp images.
- Long lasting results
- Good cost-effective solution for larger quantities
- Allows single and multi-colour decorations
- Ideal for text
- Can only be applied to flat surfaces
- Available within our SureShip™ service

Screenround

Screen round is based on the same method as screen print but the product is turned during the printing proces, making this method suitable for curved surfaces.
• Long lasting results
• Apply sharp, high-quality decoration on curved products
• Economic choice for large quantities
• Multi-colour decoration available on a selection of pens
• Ideal for text
• Available within our SureShip™ service

Digital printing

Digital printing is similar to inkjet printing. Micro droplets of ink are squirted onto a product to create an image. The ink is instantly cured by exposing it to UV light.
• Perfect for multi coloured logos
• Create a unique effect with matt, gloss or embossed finishes
• Strong resistance to fading or damage
• Ideal for small quantities
• Can only be applied to flat or slightly curved surfaces

Transfer

Transferring is done by first creating a screen print image on paper and then using heat and glue to transfer it onto the chosen article.
• Ideal for fabrics
• Perfect for logos with many colours
• Allows for extreme detail like small text
• Free standing text
• No contours required
• Economical solution for multicolour printing of smaller quantities

Test Method / Standard	European Directive / Regulation	Category	Remarks
AZO	EC/1907/2006 REACH Regulation Annex XVII – restriction on the manufacture, placing on the market and use of certain dangerous substances	Textile Garments & Caps	Certain Azo dyes can degrade to form carcinogenic or suspected carcinogenic amines.
PHENOLS (PCP/ TeCP)	EC/1907/2006 REACH Regulation Annex XVII – restriction on the manufacture, placing on the market and use of certain dangerous substances	Textile Garments	TeCP are lower derivatives of PCP & has similar properties, used to prevent mold when growing cotton and when storing/transporting fabrics.
PHENOLS (PCP ONLY)		Wooden products - (Children's & Food Contact)	PCP is a polychlorinated compound used as a preservative to wood, leather, and textiles. PCP is persistent in the environment, harmful to human health, and toxic to aquatic environments. Burning products with PCP may produce highly toxic substances.
PHTHALATES	EC/1907/2006 REACH Regulation Annex XIV and XVII + SVHC Candidate List – restriction on the manufacture, placing on the market and use of certain dangerous substances	Textile Garments & Children's product	Phthalates are a class of organic compounds added to plastics to increase flexibility. Phthalates are released from plastics and may cause damage to the liver, kidneys, or other organs.
CADMIUM	EC/1907/2006 REACH Regulation Annex XVII + SVHC Candidate List – restriction on the manufacture, placing on the market and use of certain dangerous substances	All Products	Cadmium is a heavy metal and class 1 carcinogen, exposure to cadmium over a long period of time via food, water, or air can cause kidney and lung damage, prostrate cancer, and reproductive damage.
APEOs	EC/1907/2006 REACH Regulation Annex XVII – restriction on the manufacture, placing on the market and use of certain dangerous substances	Textile Garments	APEOs are know endocrine disruptors, they are oestrogenic, and have carcinogenic properties that affect the hormonal system.
PFOS	EC 2004/850 + EU 757/2010 Maximum Concentration Values of PFOS	Textile Garments	PFOS are animal carcinogens and have been found to potentially cause liver problems, testicular tumors, mammary gland tumors, prostate gland problems, and endocrine disruptive effects, among other things.
FORMALDEHYDE	NATIONAL LEVEL ·Decree 210/1988, Finland ·Official Gazette, France ·Gefahstoffverordnung, Germany ·Commodities Act Decree on Formaldehyde in textile, Netherlands ·Product Regulation No. 922, Norway	Textile Garments & Caps Leather Cosmetics	Formaldehyde is a volatile compound used widely in apparel and textile manufacturing as an anti-creasing and an anti-shrinking agent. In addition, formaldehyde is often used in polymeric resins (e.g. phenol-formaldehyde and urea-formaldehyde). Formaldehyde is a suspected carcinogen. In addition formaldehyde is an irritant and may cause allergic reactions.
ALLERGENIC DYESTUFFS	NATIONAL LEVEL § 30 of Food and Commodities Act, Germany	Textile Garments & Caps	These dyestuffs enters the body through the skin which causes allergenic contact dermatitis
CARCINOGENIC DYESTUFFS	EC/1907/2006 REACH Regulation Annex XVII – restriction on the manufacture, placing on the market and use of certain dangerous substances	Textile Garments	Have substances acting as an agent or promoters making the body cells susceptible to DNA damage
BENZENE	EC/1907/2006 REACH Regulation Annex XVII – restriction on the manufacture, placing on the market and use of certain dangerous substances	Air freshener Markers Glue	Benzene can be used in a variety of products, for instance as stabilizer in plastics and certain types of rubber. Benzene is both toxic and carcinogenic, and the presence of benzenein toys & consumer products has therefore been restricted.
NICKEL		Wrist-watch cases, watch straps, rivet buttons, tighteners, rivets and zippers and metal marks contained in or intended to be used in garments	Nickel can cause allergic contact dermatitis (ACD). Signs of ACD range from dryness, chapping and inflammation of the skin to eczema and blisters.
TOLUENE		Adhesives, Nail polish, Cosmetics, Rubber cement, paints, Paint thinners, lacquers, Stain removers, Dyes and Inks	Toluene is a sweet-smelling, industrial solvent and a volatile organic compound (VOC).
EN-ISO 20471	89 / 689 / EEC Personal Protective Equipment (PPE) Directive	Safety Clothing / Vest	High Visibility Warning Clothing for professional use. Provides basic safety requirements that PPE must satisfy to ensure health protection and safety of users.
EN1150	89 / 689 / EEC Personal Protective Equipment (PPE) Directive	Safety Clothing / Vest for non-professional use	High Visibility Clothing for non- professional use. Provides basic safety requirements that PPE must satisfy to ensure health protection and safety of users.

Test Method / Standard	European Directive / Regulation	Category	Remarks
EN343	89 / 689 / EEC Personal Protective Equipment (PPE) Directive	Safety Clothing	These garments are intended to protect against weather conditions with combinations of precipitation, rain, fog, humidity and wind at temperatures down to +5°C.
EN 71	2009 / 48 /EC Toy Safety Directive	Toys & Children's Products	Safety of Toys, provides safety requirements for children's toys
EN 62115	2009 / 48 /EC Toy Safety Directive	Toys & Children's Products – Electrical / Electronics	Safety on Electrical Toys - deals with the safety of toys that have at least one function dependent on electricity
DIN 72553	2001 / 95/ EC General Product Safety Directive	Booster Cables / Battery Booster Cable	Battery jumper cable for road vehicles with combustion engines; dimensions, requirements, test
EN 1860-1	2001 / 95 / EC General Product Safety Directive	Barbecue Grills	Appliances, solid fuels and firelighters for barbecuing: part 1 barbecues burning solid fuels, Under the General Product Safety Directive, it stipulates that all consumer products placed on the European market are safe
EN-ISO 12312-1:2013	89 / 689 / EEC Personal Protective Equipment (PPE) Directive	Sunglasses	Personal Eye Protection – Sunglasses & Sun glare filters for general use, Provides basic safety requirements that PPE must satisfy to ensure health protection and safety of users.
EN 13356	89 / 689 / EEC Personal Protective Equipment (PPE) Directive	Visibility accessories for non-professional use	High Visibility accessories for non-professional use. Provides basic safety requirements that PPE must satisfy to ensure health protection and safety of user's presence visually when illuminated by vehicle headlight in dark roads
EN 60825-1	2006 / 95 / EC Low Voltage Directive	Laser Pointers	Safety of laser Products, requires that electrical equipment, within certain voltage limits, provides a high level of protection for the public
ISO 9994	2001 / 95/ EC General Product Safety Directive	Cigarette Lighters	ISO9999 Safety requirement for Cigarette Lighters. Under the General Product Safety Directive, it stipulates that all consumer products placed on the European market are safe
ISO 22702	2001 / 95/ EC General Product Safety Directive	Utility Lighters	ISO22702 Safety requirement for Utility lighters. Under the General Product Safety Directive, it stipulates that all consumer products placed on the European market are safe
EN 15493	2001 / 95/ EC General Product Safety Directive	Candles	Candle specification for fire safety. Under the General Product Safety Directive, it stipulates that all consumer products placed on the European market are safe
ANTIMICROBIAL PRESERVATIVE EFFECTIVENESS	Cosmetics Regulation EC 1223/2009	All consumer products (i.e., cosmetic, toys & children products & household products) made of substances and mixtures	To demonstrates the effectiveness of a substance—when used as a preservative or additive— to stop the growth of such pathogenic organisms as E. coli, Aspergillus niger, Candida albicans, Pseudomonas aeruginosa, and Staphylococcus aureus.
MICROBIAL ENUMERATION			Ensures that the product is free from bacterial / fungal contaminants
TOXICOLOGICAL RISK ASSESSMENT			The assessment of the toxicological potential is the most important step in the hazard evaluation of a cosmetics , toys & children products ingredient and consists in a series of distinct toxicity studies. Done to ensure a consumer product is safe chemically that can cause adverse health effects by acute and chronic toxicity, irritation and sensitization under normal and reasonably foreseeable conditions of use.
93-42-EEC MEDICAL DEVICES DIRECTIVE	93 / 42 / EEC Medical Devices Directive	First Aid Kits	Provides regulatory framework for Medical Devices Vigilance System
EMC	2004 / 108 / EC Electromagnetic Compatibility Directive (after Q1 2016 New EMC Directive 2014/30/EU)	Electrical / Electronics	Provides Immunity & emission limits for electrical / electronic products marketed in European Countries
ErP	2009/125/EC Ecodesign Directive relating to Energy Related Products (ErP)	Electrical / Electronics	To reduce the environmental impact of products across the life cycle, with a particular focus on energy.
R & TTE	1999/5/EC R&TTE Directive	Radio Equipment and Telecommunications Terminal Equipment	The concerns on the essential requirement on the protection of the health and the safety of the user and any other person, including the objectives with respect to safety requirements and electromagnetic compatibility
ECE 27	Vehicle Regulation	Advance Warning Triangle	This Regulation applies to certain advance-warning devices intended to be on board vehicles and to be placed on the carriageway in order to signal, by day and at night, the presence of a halted vehicle.
FOOD CONTACT	1935 / 2004 / EC, materials and articles intended to come into contact with food	Food Contact materials / articles	Provides regulatory framework for testing food contact materials
WEEE	2012 / 19 / EU Waste Electrical & Electronic Equipment Directive	Electrical / Electronics	Requires collection of used E&E equipment
BATTERY DIRECTIVE	2006/66/EC Battery Directive	Batteries	Defines acceptable limit for mercury, cadmium & lead in batteries
LVD	2006 / 95 /EC Low Voltage Directive (after Q1 2016 replaced by 2014/35/EU)	Electrical / Electronics	Requires that electrical equipment, with in certain voltage limits, provides a high level of protection for the public
E-MARK	95 / 54 / EC Automotive Electromagnetic Compatibility Directive	Car electrical / electronic Sub-assemblies	Products intended for use in vehicles are required to obtain formal type approval products prior to placing them on the market. All such products are required to carry an e-mark and to comply with European vehicle legislation in order to be legally fitted inside a vehicle.
